

THE  
CROWN  
FOR YOUR  
KITCHEN

SINKS, WORKTOPS & TAPS

---

PRODUCT CATALOGUE 2026

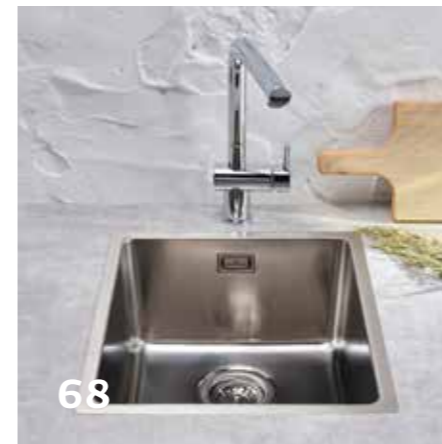

REGINOX STANDS FOR HIGH QUALITY AND  
INNOVATIVE SINKS AND WORKTOPS.

Ever since 1976, Reginox has been a leader in quality and innovation in sinks and worktops for the kitchen, project and healthcare markets. We design, develop and produce these products in-house, in a wide range of styles and variations. We also supply matching taps and accessories.

# LET US INSPIRE YOU

OUR EXTENSIVE RANGE OF SINKS, TAPS, AND WORKTOPS IN VARIOUS MATERIALS AND COLORS, COMPLEMENTED BY MATCHING ACCESSORIES, CAN BE FOUND IN THIS CATALOG.

# DUTCH DESIGN

Reliable,  
responsible & progressive

WE DEVELOP AND PRODUCE OUR STAINLESS STEEL  
SINKS AND WORKTOPS OURSELVES.  
REGINOX IS PART OF THE TER STEEGE GROEP.

PRODUCED IN  
THE NETHERLANDS

Reginox is located in Twente, in the eastern part of the Netherlands, where all our stainless steel sinks are developed and produced. From our head office in Rijssen, we serve clients all over the world. Reginox always stands for quality.

## Always a matching design

With our constantly evolving, innovative range, we are a sought-after supplier in the Dutch and international kitchen and interior design industry. We know what consumers and kitchen professionals want. That is why we consciously choose high-quality materials and techniques and do everything we can to meet our customers' needs.

# SUSTAINABILITY

AT REGINOX, WE BELIEVE THAT BUSINESS SUCCESS AND A POSITIVE IMPACT ON SOCIETY GO HAND IN HAND. SUSTAINABILITY IS AN ONGOING PROCESS THAT REQUIRES US TO KEEP PERFORMING BETTER.

Sustainability and community involvement are embedded in Reginox's DNA. We believe that business success and responsibility for people and the environment are inextricably linked. That is why we are constantly working on innovative solutions to reduce our ecological footprint, help our employees grow and strengthen our contribution to society.

90% recycled steel

5.000 solarpanels are installed

CO<sub>2</sub> footprint 3.803 tons

We export to more than 80 countries

Cardboard packaging materials for our products consist of 80% recycled materials

## MISSION AND VISION

### THE CROWN FOR YOUR KITCHEN

Reginox supplies high-quality sinks and kitchen products and stands for 100% reliability in processes, deliveries, and agreements. We take responsibility for people, the environment, and society - that is what makes us the crown for your kitchen.

# MOODBOARD

CHOOSING A KITCHEN DOES NOT HAPPEN EVERY DAY. THAT'S WHY IT'S IMPORTANT THAT CUSTOMERS ARE INSPIRED AND SUPPORTED IN MAKING THE RIGHT DECISIONS WHEN DESIGNING A KITCHEN.

A TOUCH OF *elegance* IN YOUR KITCHEN

The sink is no longer just a functional necessity; it's now an integral part of kitchen design. Whether your style is modern, industrial or classic, a coloured sink adds a touch of luxury and character. These sinks will be the standout feature in any kitchen.

SK	NO overflow, with wasteplug 1,5" and rubber stop with chain
CC	Clean & Care = always without overflow

Installation methods

## Luxury and Comfort

You will see these characteristics in the New York range by Reginox. These sinks have a sleek and modern design and are deepdrawn without welded or folded seams. The New York range is (partially) equipped with a deepdrawn comfortplug. This completes the perfect design and sets the kitchen. Also available as an OKG version, which means the waste is not deepdrawn and has a standard diameter of 3.5”.

NEW YORK SINKS HAVE  
AN INNER AND OUTER  
RADIUS OF 10 MM.

## STYLISH AS NEW YORK

SOME PEOPLE SEE NEW YORK AS ONE OF THE MOST VIBRANT  
AND MOST EXCITING CITIES IN THE WORLD. IT LEADS  
THE WAY WITH ITS STYLE, DESIGN AND TRENDS.

# Elegant with our New York Slim!

Thanks to the smart flush-mount installation, the edge is subtle and almost invisible, making the New York Slim the ideal choice as a replacement for an undermounted sink.

THE NEW YORK SLIM OWES ITS NAME TO ITS SUBTLE NARROW RIM OF JUST 6 MM.

## NEW YORK SLIM

OUR BELOVED NEW YORK LINE ALSO HAS A SLIM VERSION: NEW YORK SLIM. THIS STYLISH VERSION STANDS OUT THANKS TO ITS SLEEK, NARROW EDGE OF JUST 6 MM.

# Colour the kitchen

Choose from Gun Metal II, Copper II or Gold II and give every kitchen a unique, luxurious look. These coloured sinks are available in several sizes, including a 34x40, 40x40 and 50x40 sink and two Slim versions. The New York sinks combine quality, comfort and innovation. The sinks feature a coloured overflow and comfort plug and are known for their modern 10 mm radius. PVD-technology involves applying a special coating to the stainless steel using vapour deposition.

# NEW YORK COPPER ROSE

A KITCHEN IS NOT JUST ABOUT FUNCTIONALITY,  
BUT ALSO ABOUT STYLE AND HARMONY.

Perfect colour match with  
**the Quooker  
Rosé Copper**

## When round is preferred

That is why we have also released the New York series in a round version. A high-quality round sink, deep-drawn from a single piece of steel. Sleekly finished with a diameter of 42 cm and the familiar comfort plug. Can be installed as a integrated, semi-integrated or undermount sink, so it's always a perfect match. Because sometimes it just has to be round.

- COMFORT PLUG

# NEW JERSEY

JUST AS NEW JERSEY IS GEOGRAPHICALLY AN EXTENSION OF THE METROPOLIS OF NEW YORK, THE NEW JERSEY LINE IS AN EXTENSION OF OUR BESTSELLER: THE NEW YORK SINK. THE NEW JERSEY IS ALSO A VERY MODERN DESIGN SINK WITH AN INNER AND OUTER RADIUS OF 10 MM AND A DEEP-DRAWN PLUG. THE DIFFERENCE LIES IN THE SLIGHTLY SMALLER HORIZONTAL DEPTH (37 CM INSTEAD OF 40 CM). THIS MAKES THE NEW JERSEY EVEN EASIER TO FIT TAPS ON 60 CM DEEP WORKTOPS.

# When being different matters

Our Miami line consists of two different sinks with a stylish design in three unique colours: Gun Metal, Copper and Gold. We have achieved these colours using PVD technology, whereby vapour deposition provides the stainless steel with a special coating. All our coloured PVD taps match the Miami sink. In short, a complete line for people who want colour in their kitchen. That's the beauty of Miami.

A COMPLETE SERIES FOR THOSE WHO LIKE TO ADD COLOUR TO THEIR KITCHEN.

COPPER

GOLD

GUN METAL

# OHIO PVD

THE REGINOX OHIO COMBINES SOPHISTICATED  
DESIGN WITH BEAUTIFUL QUALITY.

The Reginox Ohio combines refined design with durable quality. This sink is now also available in our trusted three exclusive PVD colours – Gun Metal II, Copper II and Gold II – comparable with the high-quality of our popular coloured New York and Miami series.

With its timeless look and clean lines, the Ohio fits perfectly into modern kitchens. The 40x40 cm and 50x40 cm sizes make this sink versatile in use, while the PVD coating provides a strong and colourful finish that, with regular maintenance and careful use, will remain beautiful for years to come. Whether you choose the rugged depth of Gun Metal, the warm glow of Copper or the luxurious shine of Gold, the Ohio brings a touch of elegance to any kitchen.

## Easy to clean

The Colorado Comfort is a sink characterised by a pure, refined design, with slim horizontal bars in the overflow and a polished satin finish. Thanks to the deep-drawn drain, the bottom is free of seams or edges. The latter also means great ease of use: the Colorado Comfort is easy to clean. The Colorado Comfort can be installed in three different ways: integrated, semi-integrated or undermount.

SINK IS COMPLETELY SEAMLESS.

TIMELESS  
CLASSIC

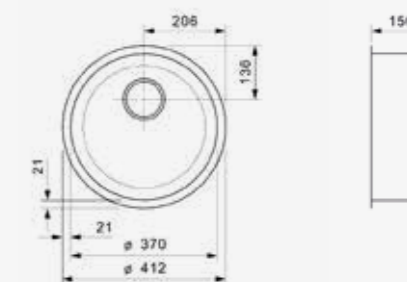

The L18 series is one of our popular classics! Round, square, double, with deep-drawn plug, with stop chain: all kinds of designs are available. The horizontal bar overflow and polishing give the L18 series a beautiful, subtle finish. This series can be installed in three ways: integrated, semi-integrated and undermount.

## Clean & Care

In this collection, we offer you a choice of 304 or 316 stainless steel. Our sink units are produced from 304 stainless steel as standard. Stainless steel 304 is easy to clean and durable in use. For sinks that may come into contact with chlorine or other acids, we always recommend our products made from stainless steel 316. This material contains the valuable alloying element molybdenum, which makes it more resistant to acids, salts and chlorine.

## IT'S ALL ABOUT HYGIENE

THIS CLEAN & CARE COLLECTION HAS BEEN SPECIALLY DESIGNED AND MANUFACTURED FOR WORKPLACES WHERE STAINLESS STEEL SINKS ARE REQUIRED. TYPICAL APPLICATIONS INCLUDE AREAS SUCH AS HOSPITALS, DENTAL AND GENERAL PRACTICES, BARS, NIGHTCLUBS, PUBLIC TOILETS AND PETROL STATIONS.

# AQUA LINE WASH BASINS

Reginox wash basins are brought together in the Aqua Line collection. When developing these designer sinks, we took into account all requirements in terms of sustainability and hygiene. Aqua Line sinks are made from stainless steel in a continuous process in which we adhere to the smallest possible dimensional tolerances.

# REGI-GRANITE

## THE POWER OF GRANITE

Reginox granite sinks are available in two distinctive series, namely Elite and Elegance. By combining these two series, we can offer an extensive range. This consists of different colours, materials, sizes and designs.

The Elite series from Reginox is manufactured from high-quality materials, using natural colours. This makes the sinks timeless, durable and versatile.

The Elegance series consists of stylish, affordable designs, available in various sizes, colours and dimensions.

## Pure design, superb quality

The Elite granite sinks are easy to clean and are available in four different versions, in various sizes: Florence, Bari, Verona and Messina. The Nero Black colour is a matte black that is deep, pure and intense. The champagne-coloured Elite sinks are beige with a hint of yellow, resembling a light sand tone. Soft White is a warm, off-white colour with striking soft undertones, creating a creamy and inviting look.

# REGI-GRANITE ELITE

REGI-GRANITE ELITE SINKS ARE MADE FROM A COMPOSITE OF NATURAL GRANITE AND ACRYLIC RESIN. A SPECIALISED PROCESS IS USED, INVOLVING FULLY COLOURED GRANITE PARTICLES. THIS MAKES THE SINKS TIMELESS, DURABLE AND VERSATILE, WITH HIGH RESISTANCE TO IMPACT AND TEMPERATURE CHANGES.

# Stylish designs

Regi-Granite Elegance sinks are made from a special blend of granite and synthetic resin. The sinks are available in various stylish designs: Amsterdam, Harlem and Texel. The Elegance sinks are hygienic and easy to maintain. There are multiple installation options, some variants are reversible and the tap holes are already prepared in some models. In total, the granite range consists of 16 different sinks, available in several colours: Black Silvery, Caffè Silvery, Grey Silvery, Pure White and Pure Black.

# MULTIFUNCTIONAL ASPEN

WANT TO CREATE MORE WORKSPACE IN THE KITCHEN? THE ASPEN OFFERS THIS AND MANY OTHER POSSIBILITIES. THE FREE STANDING DRAINER IS VERSATILE AND CAN BE MOUNTED ON TOP OF THE SINK AS A PARTIAL COVER PLATE, EXTENDING THE WORKTOP.

PRACTICAL  
AND ELEGANT

# NEW YORK / ONTARIO BOTTOMS

STAINLESS STEEL BOTTOMS IN 40X40 AND 50X40  
WITH A 0 MM AND 10 MM RADIUS.

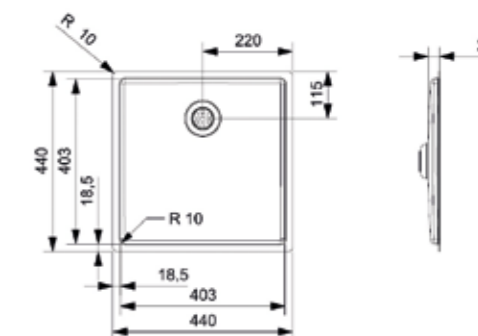

A solid worktop made of granite or Corian and a hot water tap at the same time? Reginox has the solution! The stainless steel sink bases are 2 cm deep and also have a slope towards the drain. The stainless steel bottoms with a radius of 10 mm are equipped with an integrated drain, and the bottoms with a radius of 0 mm have a standard 3.5-inch drain.

## Exactly to size

It is very hygienic, easy to clean and very solid. Reginox produces precision-made worktops using this top-grade material in any design you want and with an eye for detail and quality. Stainless steel sinks are neatly welded in, creating a unique look. Options include seamless welded kitchen islands, integrated cooking hob cut-outs, recessed, corner and column cut-outs.

Depending on the thickness, Reginox can also seamlessly produce the worktops themselves. Reginox distinguishes between 4 mm solid stainless steel worktops and mounted stainless steel worktops.

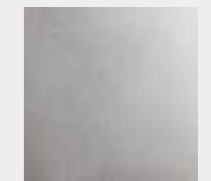

4 MM SOLID  
ECCENTRICALLY  
POLISHED

# STAINLESS STEEL WORKTOPS

STAINLESS STEEL IS THE TOUGHEST AND MOST DURABLE MATERIAL YOU CAN CHOOSE FOR A KITCHEN AND IT OFFERS ALL KINDS OF PRACTICAL BENEFITS.

ASK FOR  
OUR  
PRICELIST

## INSTALLATION METHOD

### Integrated options

Reginox can manufacture a cut-out for hob plate if required. depending on the cut-out, the hob plate can be installed in two ways: integrated or inset. Further options include recessed section and a single or double socket in the edge profile.

### Corner Joint

There are three possibilities to choose from, when connecting the corners:

- a welded seam
- a connection with bolts
- a (virtually seamless) adhesive-seam mitre joint

### Stainless steel support-walls and Frames

A worktop can rest on the supporting cabinets, but this is not always necessary. If a worktop is not fitted with supporting cabinets, it can be supported by so-called support walls, which are also made of stainless steel. These support walls are available in different lengths, widths and depths and can be customised to a customer's requirements. If required, Reginox will also supply customised frames.

### Stainless steel Back and Side Panels

Reginox will supply stainless steel panels and back or side panels in a variety of finishes.

### Installation Sinks

Almost all Reginox sinks can be welded in seamlessly.

### Worktop Options

Straight worktop, corner worktop, U-shaped worktop, high-backed, backed, block profile, rounded finish, cut-out for hob top, tap hole, corner, cut-out for column, island worktops. The possibilities are endless.

## 4 MM SOLID STAINLESS STEEL WORKTOPS

Robust and solid stainless steel offers infinite flexibility when designing your kitchen. Worktops can be manufactured entirely seamless if required and up to a length of 5,9 meters. You can choose between four different finishes, hot-rolled, matt brushed, non-directional brushed and eccentrically polished.

## MOUNTED STAINLESS STEEL WORKTOPS

As standard, mounted worktops are supplied in 1.2 mm matt brushed or textured surface finish steel. Mounted worktops can also be supplied in the non-directional brushed finish for an additional cost.

**Solid and  
robust  
material**

## EDGING PROFILES

Reginox can make worktops with various edging profiles to give them a more attractive appearance. The edge thickness of a worktop ranges from 12 mm to 40 mm. The mounted stainless steel worktops are supplied as standard without splashback and including adhesive-fitted MDF.

## OUR FINISHES

### Hot Rolled

Countertops made of hot-rolled stainless steel retain their natural properties and are even less susceptible to scratches. Minor imperfections in colour and texture are possible.

### Matt Brushed

With a matt brushed worktop, the surface of the stainless steel is sanded or ground. This creates a nice, even and matt surface.

### Non-Directional Brushed

The surface is machined with a non-directional ground texture, resulting in a matt effect. By applying this effect, scratches and fingerprints are less visible.

### Eccentrically polished

The stainless steel worktop is eccentrically brushed using a special technique, giving the worktop a series of light scratches. This produces a very attractive result and means that any scratches that appear over the years are barely visible.

## STANDARD STAINLESS STEEL WORKTOPS

Reginox' standard stainless steel worktops are available in different lengths and depth sizes. The thickness of the worktop is 27 mm and the thickness of the stainless-steel ranges from 0.7 to 0.8 mm. The standard stainless steel worktops are available with single or double sinks. Reginox' standard stainless steel worktops can be supplied with a ribbed surface, backsplash, cut-out for hob top and/or tap hole(s), if required. A tilted upright at the rear of the worktop is also an option.

The standard stainless steel worktops are all fitted with robust adhesive-mounted FSC®-certified wood.

### Finish

Our standard stainless steel worktops can have a finish in either a diamond or stainless steel flat mirrored finish. The embossed diamond finish makes scratches much less visible.

## STANDARD STAINLESS STEEL WORKTOPS

OUR STANDARD STAINLESS STEEL WORKTOP IS VERSATILE AND OF HIGH QUALITY. THE DIAMOND STRUCTURE ENSURES AN ELEGANT APPEARANCE AND A BEAUTIFUL DESIGN.

Sustainable,  
stylish  
and sleek

We have various types of worktops in stock: ranging in size from 102 to 241.5 cm. So there is plenty of choice.

But there are more advantages:

- Available in various lengths
- Worktop thickness 27 mm
- Water barrier around the edge
- Corners at the rear of the worktop folded down (not welded shut)
- Standard sink with wall overflow
- Available with or without a 35 mm tap hole

Would you prefer a different worktop? No problem, we can also customise our diamond worktops. If required, we can fit a different model of sink and add a hob cut-out.

Modern  
design  
& sleek  
finish

# Smart and complete

This unique space saving design incorporates a 'none return valve' which removes the need for a bulky trap. It takes the pipework to the back of the cabinet meaning you can save space which is otherwise wasted by a traditional siphon. Our Panama is suitable for any type of sink, with its modern, simple design can make a huge difference to any kitchen.

It can be installed on all new and already installed sinks.

A COMPLETE WASTE SYSTEM

# PANAMA

## THE SMARTEST WASTE SYSTEM

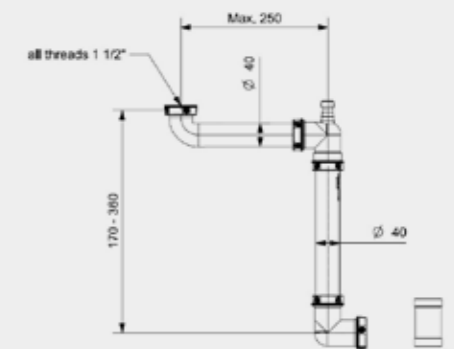

THE SPACE SAVING WASTE SYSTEM IS A CUTTING-EDGE DESIGN THAT HELPS TO UTILISE THE SPACE UNDER YOUR KITCHEN SINK.
